UK Outlook for Sunday 17 Jan 2021 to Sunday 31 Jan 2021:
Confidence is low during this time but more unsettled conditions may continue to affect at least southern and central parts of the UK, with drier and colder weather being retained in the north. Whilst generally remaining colder than average some milder interludes are possible in the south. Later in the month an increased chance of colder conditions returning nationwide. Throughout there is a risk of snowfall and other wintry hazards.
